##### 【破题思路】

第一段: 引出话题，指出人与人之间的相互影响非常普遍，包括家人，朋友等等

第二段: 可以列举积极或消极的影响，只写其一也可以。两点都写形成对立也可以。积极：看到别人的成功，相互促进，能变得更好。消极：别人的负面情绪会传递，让身边的人也一样变的消极，导致心情变差，自己也更消极。

第三段: 表达看法。可以写自己的建议，避免消极的影响

#### My View on Mutual Influence

In recent years, with the development of globalization and social media, there is a growing tendency that an increasing number of people are influencing each other, especially among family members, friends, and classmates.

It is obvious that mutual influence has its positive and negative effects. On the one hand, there is no doubt that some successful people will set good examples for others, which can stimulate them to work hard. On the other hand, it goes without saying that for those pessimistic people, they will get more pressure from others, which makes them give up easily.

From my point of view, we live together with other people, which means we can not isolate ourselves from others. Mutual influence is unavoidable. We should try to make full use of it, and try to avoid those negative impacts.
